[Docket Number FRA-2016-0030]

**Notice of Application for Approval of Discontinuance
or Modification of a Railroad Signal System**

In accordance with part 235 of Title 49 of the Code of Federal Regulations (CFR) and 49 U.S.C. 20502(a), this document provides the public notice that by a document dated March 29, 2016, Kansas City Southern Railway (KCS) petitioned the Federal Railroad Administration (FRA) seeking approval for the discontinuance or modification of a signal system. FRA assigned the petition Docket Number FRA-2016-0030.

Applicant: Kansas City Southern Railway

Mr. Steven E. Jones

Director, Signal Operations

4601 Hillary Huckaby III Avenue

Shreveport, LA 71107

KCS seeks approval of the discontinuance of Control Point (CP) North Ruliff at Milepost (MP) 740.6, on the Southwest Division, Beaumont Subdivision, Ruliff, TX. KCS will remove the CP and install an intermediate signal, hand-operated switch, and switch circuit controller.

These changes are being proposed due to recovery from catastrophic flooding. CP North Ruliff's signal housing and facing signal were washed away. KCS would like to

make these changes permanent due to the fact that the side track at CP Ruliff is a single-ended track and is not used to meet trains.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue, SE., W12-140, Washington, DC 20590.
